Town's net debt Jan. 6, 1882, subject to increase by
the remittance of taxes,

\$9,006 52

We, the undersigned, a committee chosen by the town of Harwich, to itemize the accounts of the town, for the years of 1880 and 1881, beg leave to submit the foregoing report, which we believe to be correct. We are unable to give a clear financial statement of the town's liabilities and resources, from the fact that we find no record of any settlement with the collectors of taxes since 1874. And forty-nine $\frac{56}{100}$ dollars is the amount of all the orders drawn for the remittance of taxes since 1875. Also, in the resources, we are obliged to estimate the outstanding bills against the town, as we have no means of learning the exact amount of bills of 1881, remaining unpaid Jan. 6, 1882.

BY-LAWS TO PREVENT TRUANCY.

ARTICLE 1st. The town of Harwich hereby avails itself of the several provisions of the statutes of this Commonwealth, now in force, relating to habitual truants and absentees from school, and in pursuance of authority conferred, thereby adopts the following by-laws:

ARTICLE 2d. All children between the ages of seven and fifteen years, residing in said town, and who may be found wandering about in the streets or public places of said town, having no lawful occupation or business, not attending school, and growing up in ignorance, shall be committed to any institution which may be provided for by the State or the County of Barnstable, or the town of Harwich, for confinement, instruction and discipline.

ARTICLE 3d. Three or more truant officers shall be appointed annually, whose duty it shall be to inquire into all violations of the truant laws, and of the law relating to compulsory education, and to do all the acts required of them by the laws of the Commonwealth.

ARTICLE 4th. It shall be the duty of every truant officer previous to making any complaint under these laws, to notify the truant or absentee from school, also his parent or guardian, of the offence committed, and of the penalty therefor; and if the truant officer can obtain satisfactory pledges for the restraint and reformation of the child, he may at his discretion forbear to prosecute so long as such pledges are faithfully kept.

ARTICLE 5th. It shall be the duty of the School Committee, the teachers of the public schools, and the citizens generally, to aid the truant officers, as far as possible in the discharge of their duties.

ARTICLE 6th. It shall be the duty of the truant officers to keep a full record of their official acts, and make an annual report thereof to the school committee, who shall publish the same with their own report.

ARTICLE 7th. Nothing in these by-laws shall be so construed as to alter or impair the obligation and duty of teachers to enforce punctuality and regularity of attendance, and to preserve good order and discipline.

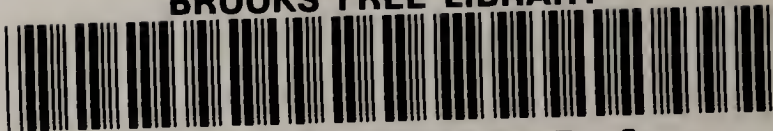

GEORGE N. MUNSELL,	} School Committee.
S. A. HAYWARD,	
GEO. W. NICKERSON,	

Harwich, Nov. 19th, 1879.

In an annual town meeting, held November, 1879, it was voted that the school committee should serve as truant officers, whose duty it shall be to enforce the foregoing by-laws to prevent truancy.

Remarks.

In closing our report for the past year, your committee feel fully sustained in reporting good progress. With few exceptions, the schools have not only maintained their good standing of last year, but have made that advancement which does credit to teachers and pupils. One mark of "better times" in our schools the past year, has been the correction of truancy, to a great degree, and we have inserted in our report again, the "By-laws to prevent Truancy," that they may be carefully read and kept fresh in the minds of pupils and parents. The slight falling off in the percentage of attendance this year, compared to last year, is

wholly due to the prevailing epidemic of measles during the winter; and with the severity of the weather and prevailing sickness among the children, we are pleased to be able to give so good a report. We can also report an increase in the general interest of education in our town; parents are more alive to the educational welfare of their children, and its effect is clearly manifested in our schools.

The teachers in the town have formed themselves into an organization, to meet as often as deemed advisable, to discuss topics which are connected with our common schools, and thereby hoping to better fit themselves for their high and responsible stations; thereby aiding each other, that through their combined efforts, our schools may be brought up to a higher grade of advancement.

Your committee also with great pleasure anticipate preparing the upper room of the seminary for a high school room, where our advanced pupils may receive all the benefits to be derived from a thorough high school course of instruction. This is to go into effect the coming season, and we believe that it will be a great educational step forward, which will be felt not only by us, but by future generations.

With these cheering results and still brighter anticipations, we give this report, only hoping that parents, pupils and teachers may work together in harmony, to make our schools what they should be—the stepping stones to great and noble lives.

Respectfully submitted.

GEO. N. MUNSELL,

Chairman School Committee.

Harwich, April 16th, 1881.
